COPY NO. 3

29 June 1951

25X1A9A

MEMORANDUM FOR: O/SO

SUBJECT: Military Intelligence Requirements

1. Attached is the State Department's reply to the estimated capability for assisting in the fulfillment of certain parts of the JCS request for collection.

2. I talked to Ross yesterday and informed him, in response to a question, that aside from State's going ahead on the collection indicated in the attachment here they could now relax and that the next initiative with respect to State would be up to us. I suggested that after studying the covert collection requirements, which I transmitted to you the other day, O/SO might wish to discuss whether a revision periodically would be helpful or whether any useful purpose whatever was served by this experiment.

Assistant Director
Intelligence Coordination
